INDEX

ACIDOSIS, metabolic (see Metabolic acidosis).
ALBANESE, ANTHONY A., L. EMMETT HOLT, JR., VIRGINIA I. DAVIS, SELMA E. SNYDERMAN, MARILYN LEIN AND EMILIE M. SMETAK. The biological value of a meat hydrolysate in the infant 133
Albino rat (see Rat, albino).
ALLISON, JAMES B. 231
ALPER, CARL 785
Amino acid(s), availability of, in some foods 359
—— —— essential, growth efficiency of, alone and in combination with casein 751
—— —— indispensable, role of, in maintenance of adult albino rat .. 245
—— —— mixtures low in isoleucine, methionine or valine, nitrogen balance index and specific dynamic action in rats receiving 703
—— —— utilization, studies in. III. 245
ANDERSON, GERALD C. 437
ANDERSON, JOSEPH T., AND E. S. NASSET. Nitrogen balance index and specific dynamic action in rats receiving amino acid mixtures low in isoleucine, methionine or valine . 703
Anemia (anti-pernicious) liver extract, folic acid, and biotin, need for and interrelationship of, in pig 215
—— factor, pernicious, response of dogs to liver extracts containing . 425
—— of chronic choline deficiency in rats 739
Animals, effect of previous diet on ability of, to do work during subsequent fasting 639
Antiacrodynic potency of fats and linoleic esters, effects of autoxidation on 523
Anti-anemia factor, monkey, distribution and fractionation of 405
Anti-pernicious anemia liver extract, folic acid, and biotin, need for and interrelationship of, in pig 215
Appetite for fats 91
Arizona, southern, basal metabolism of 218 girls and young women of . 507
Ascorbic acid metabolism in rat, relation of, to diets high in protein, carbohydrate or fat 205
ASENJO, CONRADO F., with tech. assistance of Maria L. Quintana and Ana I. Muniz. Peteroylglutamic acid requirement of the rat and a characteristic lesion observed in the spleen of the deficient animals 601
Autoxidation, effects of, on antiacrodynic potency of fats and linoleic esters 523
Award, "B-complex" (see Mead Johnson and Company).
—— Borden (see Borden award).
—— Osborne and Mendel (see Osborne and Mendel).

BACTERIAL and fungal enzymes, digestion of casein with 239
Balance, nitrogen, of adult dog, minimum nitrogen requirement for maintenance of 109
—— studies, pteroylglutamic acid, on monkeys 803
BARKI, V. H. 761
BARNES, RICHARD H. 773
Basal metabolism (see Metabolism, basal).
"B-complex" award (see Mead Johnson and Company "B-complex" award).
—— vitamins, effect of supplementing enriched flour with 187
BENDITT, EARL P. 245
Beriberi in an endemic sub-tropical area 561
Biological value(s) of casein, influence of concentration of mixtures of components of vitamin B complex on 727
—— —— of meat hydrolysate in infant 133
—— —— of proteins, creatinine nitrogen percentage as check on 171
—— —— of six partially-purified proteins 153
—— —— relative, of proteins in cereal grains 695
Biotin, folic acid, and anti-pernicious anemia liver extract, need for and interrelationship of, in pig 215
BLACKWOOD, MARGERY 153
Blood composition of cows and their calves, at parturition, effects of mineral supplementation of prepartal diet upon 75
—— plasma, human, vitamin A content of, as index of carotene utilization 381
Bobwhite quail, storage by, of vitamin A fed in various forms 323
BONE, JESS F. 215
Borden award in nutrition, 1949, announcement 520
BORENSTEIN, M. K., AND CHARLES SCHWARTZ. The effect of the complex-forming amorphous sodium phosphates on the calcium retention of rats 681
BOSSHARDT, DAVID K., WINIFRED J. PAUL, KATHLEEN O'DOHERTY AND RICHARD H. BARNES. Caloric restriction and protein metabolism in the growing mouse 773
BOWLES, LESTER L. 277
Boys (see Children).
BRADFORD, MARJORY 359
Brain excitability in pyridoxine-deficient rats 263
BRICKSON, WILLIAM L. 425
Bulk-formers in diet, prolongation of life span of rats by 27
BUSTAD, LEO K. 215

Butterfat production of dairy cow, effect of mixed tocopherols on 595
Buttermilk, dried, supplementary value of, to proteins in milled white corn meal and milled enriched wheat flour 65
B-vitamins, 5, occurrence of, in tissues of pregnant rats fed rations satisfactory and unsatisfactory for reproduction 463

CALCIUM retention of rats, effect of complex-forming amorphous sodium phosphates on 681
CALDWELL, ANNE B. 123
Caloric intake, voluntary, of growing rat 667
—— restriction and protein metabolism in growing mouse 773
Calves, composition of blood of, at parturition, effects of mineral supplementation of prepartal diet upon 75
Carbohydrate, diets high in, relation of, to ascorbic acid metabolism in rat 205
—— dynamic action on human subjects of diets high in 41
Caries, rat (see Rat caries).
CARLSON, ANTON J., AND FREDERICK HOELZEL. Prolongation of the life span of rats by bulk-formers in the diet 27
Carotene, $\alpha + \beta$, vitamin A, and total carotene concentrations in plasma 315
—— in white rat, effects of soya lecithin on absorption, utilization and storage of 391
—— utilization, vitamin A content of human blood plasma as index of 381
CARRASCO, EUFRONIO O. 561
Casein, biological value of, influence of concentration of mixtures of components of vitamin B complex on 727
—— digestion of, with bacterial and fungal enzymes 239
—— —— —— —— pancreatic enzymes 231
—— growth efficiency of essential amino acids alone and in combination with 751
—— nutritive value of, effect of enzymatic hydrolysis on, I., II. 231, 239
Cataracts due to deficiencies of phenylalanine and histidine in rat 277
Cattle, dairy, mineral metabolism studies in. IV. Effects of mineral supplementation of prepartal diet upon composition of blood of cows and their calves at parturition 75
Cereal grains, relative biological values of proteins in 595
Chick(s) fed rations containing linseed oil meal, relation of pyridoxine to growth of 297
—— lysine requirement of, effect of protein level on 99
—— potassium requirement of 351
CHIEFFI, MARGARET 315
Children, energy expenditure of, standing drawing and dressing and undressing 123
Cholesterol content of cows' milk 495
Choline deficiency, chronic, in rat, anemia and edema of 739
—— —— in baby pig 339
CHOW, BACON F. The effect of enzymatic hydrolysis on the nutritive value of casein. II. Digestion of casein with bacterial and fungal enzymes 239
—— JAMES B. ALLISON AND JOHN I. WHITE. The effect of enzymatic hydrolysis on the nutritive value of casein. I. Digestion of casein with pancreatic enzymes 231
—— CARL ALFER AND SHIRLEY DEBIASE. The effects of oral administration of different proteins on the plasma proteins of protein-depleted dogs 785
CHU, TA-KUNG 523
COLBY, ROBERT W. 215
Convulsive seizures in rats, relation to starvation and metabolic acidosis 139
Corn meal, milled white, supplementary values of dried food yeasts, soybean flour, peanut meal, dried nonfat milk solids, and dried buttermilk to proteins in 65
—— —— —— with dried food yeast, supplementary value of proteins in 59
Cow(s) and their calves, composition of blood of, at parturition, effects of mineral supplementation of prepartal diet upon 75
—— dairy, effect of mixed tocopherols on milk and butterfat production of 695
—— milk (see Milk, cows').
COX, ELIZABETH W. 507
Creatinine nitrogen percentage as check on biological values of proteins 171
CUNHA, TONY J., ROBERT W. COLBY, LEO K. BUSTAD AND JESS F. BONE. The need for and interrelationship of folic acid, antipernicious anemia liver extract, and biotin in the pig 215

DAIRY cattle (see Cattle, dairy).
Dairy cow (see Cow, dairy).
DAVENPORT, HORACE W. 139, 263
DAVENPORT, VIRGINIA D., AND HORACE W. DAVENPORT. The relation between starvation, metabolic acidosis and convulsive seizures in rats 139
—— Brain excitability in pyridoxine-deficient rats 263
DAVIS, VIRGINIA I. 133
DAY, PAUL L., AND JOHN R. TOTTER, with assistance of Dorothy S. Gaines, Raymond Houchins, Marion McKee and Phyllis Scroggin. Pteroylglutamic acid balance studies on monkeys 803
DEBIASE, SHIRLEY 785
DERBY, J. V. 323
DEWITT, J. B. 323
DIETERICH, SHIRLEY 859
Diet(s), effect of previous, on ability of animals to do work during subsequent fasting 639
—— high in protein, carbohydrate or fat, relation of, to ascorbic acid metabolism in rat 205
—— high-protein and high-carbohydrate, dynamic action on human subjects of 41
—— pork, reproduction and lactation of rats on 479
—— prepartal, of dairy cattle, effects of mineral supplementation of, upon blood composition 75
—— prolongation of life span of rats by bulk-formers in 27
—— self-selection of. VIII. Appetite for fats 91
Digestion of casein with bacterial and fungal enzymes 239

—— —— —— —— pancreatic enzymes 231
Dog(s), adult, minimum nitrogen requirement of, for maintenance of nitrogen balance 109
—— protein-depleted, effects of oral administration of proteins on plasma proteins of 785
—— response of, to liver extracts containing pernicious anemia factor 425
Dynamic action of high-protein and high-carbohydrate diets on human subjects 41

ECONOMY of food utilization, influence of concentration of mixtures of components of vitamin B complex on 727
Edema of chronic choline deficiency in rat 739
ELLIS, GORDON H. 579
ELVEHJEM, CONRAD A. .. 405, 425, 479, 761
Energy expenditure of 9- to 11-year-old boys and girls 123
ENGEL, R. W. Anemia and edema of chronic choline deficiency in the rat 739
Enriched flour, effect of supplementing with B-complex vitamins 187
Enzymatic hydrolysis, effect of, on nutritive value of casein. I., II. 231, 239
Enzymes, bacterial and fungal, digestion of casein with 239
—— pancreatic, digestion of casein with 231
EPPRIGHT, MARGARET 463
ESH, GOPES C., AND THOMAS S. SUTTON. The effects of soya lecithin on the absorption, utilization and storage of vitamin A and carotene in the white rat 391
ESTERER, MARIE B. 537
EVERSON, GLADYS, ELEANOR WILLIAMS, ELIZABETH WHEELER, PEARL SWANSON, MATTIE SPIVEY AND MARGARET EPPRIGHT. The occurrence of 5 B-vitamins in the tissues of pregnant rats fed rations satisfactory and unsatisfactory for reproduction 463
Excretion, urinary (see Urinary excretion).
Experimental rat caries. I. 1
Extraction flour, 80%, observations on use of 187

FAJANS, RUTH S. 537
Fasting, effect of previous diet on ability of animals to do work during subsequent 639
Fat(s), appetite for 91
—— diets high in, relation of, to ascorbic acid metabolism in rat 205
—— effects of autoxidation on antiacrodynic potency of 523
Feeds produced under two systems of soil fertilization, lactation response as limited by 625
Fertilization, soil (see Soil fertilization).
Flour(s), 80% extraction, observations on use of 187
—— enriched, effect of supplementing with B-complex vitamins 187
—— improving the nutritive value of. II. 187
—— milled enriched wheat, supplementary values of dried food yeasts, soybean flour, peanut meal, dried non-fat milk solids, and dried buttermilk to proteins in 65
—— —— wheat, with dried food yeast, supplementary value of proteins in 59
—— soybean (see Soybean flour).
—— treated with various "improving" agents, toxicity of 15
Folic acid, anti-pernicious anemia liver extract, and biotin, need for and interrelationship of, in pig 215
Food(s), availability of amino acids in some 359
—— economy of young rat during chronic starvation and recovery 177
—— utilization, economy of, influence of concentration of mixtures of components of vitamin B complex on 727
—— yeast(s), dried, supplementary value of proteins in milled corn meal and milled wheat flour with 59
—— —— —— —— —— —— to proteins in milled white corn meal and milled enriched wheat flour 65
FRAZIER, LAURENCE E. 245
Fungal and bacterial enzymes, digestion of casein with 239

GAINES, DOROTHY S. 803
GEIGER, E., with tech. assistance of Leslie E. Geiger. The role of the time factor in feeding supplementary proteins 813
GEIGER, LESLIE E. 813
GILLIS, MARVIN B. Potassium requirement of the chick 351
GILMORE, RICHARD C. 639
Girls (see also Children).
—— and young women (218) of southern Arizona, basal metabolism of 507
GLICKMAN, NATHANIEL, HAROLD H. MITCHELL, EDWARD H. LAMBERT AND ROBERT W. KEETON. The total specific dynamic action of high-protein and high-carbohydrate diets on human subjects 41
Goats, placental and mammary transfer of tocopherols (vitamin E) in 721
Grains, cereal, relative biological values of proteins in 595
GRAU, CHARLES R. Effect of protein level on the lysine requirement of the chick 99
Growth, and liver damage, in rabbit 579
—— efficiency of essential amino acids alone and in combination with casein 751
—— of chicks fed rations containing linseed oil meal, relation of pyridoxine to 297
—— —— rats, southern peas and other legume seeds as source of protein for 451
—— promoting property, alleged, of vaccenic acid 761
—— vitamins required by swine for 437

HALL, W. KNOWLTON, LESTER L. BOWLES, VIRGIL P. SYDENSTRICKER AND HENRY L. SCHMIDT, JR. Cataracts due to deficiencies of phenylalanine and of histidine in the rat. A comparison with other types of cataracts 277

HART, E. B. 695, 761

RUSSELL, WALTER C., AND M. WIGHT TAYLOR. Growth efficiency of essential amino acids alone and in combination with casein 751

SALCEDO, JUAN, JR., EUFRONIO O. CARRASCO, FRANCISCO R. JOSE AND RAMON C. VALENZUELA. Studies on beriberi in an edemic sub-tropical area 561
—— VICTOR A. NAJJAR, L. EMMETT HOLT, JR. AND ELSA W. HUTZLER. The relation between urinary excretion and tissue concentrations of thiamine in rats 307
SALSBURY, R. LAWRENCE 75
SAMUELS, LEO T. The relation of ascorbic acid metabolism in the rat to diets high in protein, carbohydrate or fat 205
—— RICHARD C. GILMORE AND ROGER M. REINECKE. The effect of previous diet on the ability of animals to do work during subsequent fasting 639
SARICH, PETER 667
SCHMIDT, HENRY L., JR. 277
SCHWARTZ, CHARLES 681
SCHWEIGERT, BERNARD S. 479
SCOTT, EDWARD M., AND ETHEL L. VERNEY. Self selection of diet. VIII. Appetite for fats 91
SCROGGIN, PHYLLIS 803
Seeds, legume (other), and southern peas as source of protein for growth of rats 451
Seizures, convulsive, in rats, relation to starvation and metabolic acidosis 139
Sheep, placental and mammary transfer of tocopherols (vitamin E) in 721
SHEN, CHAO-WEN 537
SLANETZ, CHARLES A. 331
SMETAK, EMILIE M. 133
SNYDERMAN, SELMA E. 133
Sodium phosphates, complex-forming amorphous, effect of, on calcium retention of rats 681
SOGNNAES, REIDAR F. Experimental rat caries. I. Production of rat caries in the presence of all known nutritional essentials and in the absence of coarse food particles and the impact of mastication .. 1
Soil fertilization, lactation response as limited by feeds produced under two systems of 625
Southern peas and other legume seeds as source of protein for growth of rats 451
Soya lecithin, effects of, on absorption, utilization and storage of vitamin A and carotene in white rat ... 391
Soybean flour, supplementary value, to proteins in milled white corn meal and milled enriched wheat flour . 65
Specific dynamic action, and nitrogen balance index, in rats receiving amino acid mixtures low in isoleucine, methionine or valine ... 703
SPIVEY, MATTIE 463
Spleen of rat deficient in pteroylglutamic acid, characteristic lesion observed in 601
SPORN, EUGENE M. 405
Starvation, chronic, food and water economy of young rat during . 177
—— in rats, relation to metabolic acidosis and convulsive seizures . 139
STEFFEE, CLYDE H. 245
Storage by bobwhite quail of vitamin A fed in various forms 323
SURE, BARNETT. The nature of the supplementary value of the proteins in milled corn meal and milled wheat flour with dried food yeast 59
—— Relative supplementary values of dried food yeasts, soybean flour, peanut meal, dried non-fat milk solids, and dried buttermilk to the proteins in milled white corn meal and milled enriched wheat flour . 65
—— AND FRANCES HOUSE. The relative biological values of the proteins in cereal grains 595
—— AND FREELAND ROMANS. Influence of the concentration of mixtures of various components of the vitamin B complex on biological value of casein and on economy of food utilization 727
SUTTON, THOMAS S. 391
SWANSON, PEARL 463
Sweet pea (*Lathyrus odoratus*), Nutritive value of some legumes 537
Swine, placental and mammary transfer of tocopherols (viamin E) in 721
—— reproduction of, some observations on 437
—— vitamins required by, for growth 437
SYDENSTRICKER, VIRGIL P. 277
Systems of soil fertilization, lactation response as limited by feeds produced under two 625
SZYMANSKI, THADDEUS A. 153, 171

TAYLOR, CLARA M., ORREA F. PYE AND ANNE B. CALDWELL. The energy expenditure of 9- to 11-year-old boys and girls (1) standing drawing and (2) dressing and undressing 123
TAYLOR, M. WIGHT 751
TEMPLETON, FRANCES 187
THACKER, EDWARD J., AND GORDON H. ELLIS. Liver damage and growth in the rabbit 579
Thiamine, tissue concentrations of, and urinary excretion, in rats, relation between 307

THOMPSON, ETHEL M., ELIZABETH W. COX AND ADA M. RIDGWAY. The basal metabolism of 218 girls and young women of southern Arizona, 14 to 23 years of age, inclusive . 507
THORP, FRANK, JR. 417
Time factor, role of, in feeding supplementary proteins 813
Tissue(s) concentrations of thiamine and urinary excretion in rats, relation between 307
—— of pregnant rats fed rations satisfactory and unsatisfactory for reproduction, occurrence of 5 B-vitamins in 463
Tocopherols, mixed, effect of, on milk and butterfat production of dairy cow 695
—— (vitamin E) in sheep, goats and swine, placental and mammary transfer of 721
TORBET, NANCY J. 425
TOTTER, JOHN R. 703
Toxicity of flours treated with various "improving" agents 15
TRANT, MARY 359
TRAVERS, JOHN J. 667
Tryptophane, nicotinic acid and protein, relationship of, in nutrition of pig 417
TULL, CAROLYN 417
Turkey, nutrition of, vitamin B_c, inositol and nicotinic acid in . . . 369

URINARY excretion and tissue concentrations of thiamine in rats, relation between 307

VACCENIC acid, alleged growth promoting property of 761
VALENZUELA, RAMON C. 561
Valine, amino acid mixtures low in, nitrogen balance index and specific dynamic action in rats receiving . 703
VERNEY, ETHEL L. 91
Vitamin(s) A content of human blood plasma as index of carotene utilization 381
—— —— fed in various forms, storage of, by bobwhite quail 323
—— —— in white rat, effects of soya lecithin on absorption, utilization and storage of 391
—— —— total carotene and $\alpha + \beta$ carotene concentrations in plasma 315
—— B_c in nutrition of turkey 369
—— B-complex, effect of supplementing enriched flour with 187
—— B complex, influence of concentration of mixtures of components of, on biological value of casein and economy of food utilization 727
—— E deficient rats, implantation in 331
—— —— (tocopherols), placental and mammary transfer of, in sheep, goats and swine 721
—— required by swine for growth, with some observations on reproduction 437
—— studies in middle-aged and old individuals. I. 315
Voluntary caloric intake of growing rat 667

WARD, GEORGE M. 75
Water economy of young rat during chronic starvation and recovery . 177
WESTERMAN, BEULAH D., AND FRANCES TEMPLETON. Improving the nutritive value of flour. II. Further studies on the effect of supplementing enriched flour with B-complex vitamins and some observations on the use of 80% extraction flour . 187
Wheat flour, milled (see Flour, milled wheat).
—— —— —— enriched (see Flour, milled enriched wheat).
WHEELER, ELIZABETH 463
WHITE, JOHN I. 231
WHITING, F., AND J. K. LOOSLI. The placental and mammary transfer of tocopherols (vitamin E) in sheep, goats and swine 721
WILLIAMS, DELBERT E. 297
WILLIAMS, ELEANOR 463
WISSLER, ROBERT W., CLYDE H. STEFFEE, LAURENCE E. FRAZIER, ROBERT L. WOOLRIDGE AND EARL P. BENDITT. Studies in amino acid utilization. III. The role of the indispensable amino acids in maintenance of the albino rat . . . 245
Women, young, and girls (218) of southern Arizona, basal metabolism of 507
WOODARD, GEOFFREY 15
WOOLRIDGE, ROBERT L. 245
Work during fasting (subsequent), effect of previous diet on ability of animals to do 639

YEAST(s), dried food, supplementary value of proteins in milled corn meal and milled wheat flour with 59
—— —— —— —— —— —— to proteins in milled white corn meal and milled enriched wheat flour . 65
